rev. 01/10/19

For Research Use Only. Not For Use In Diagnostic Procedures.

Description: ELISA Wash Buffer (20X) is specifically formulated for use with both FastScan™ and PathScan® ELISA Kits. It is the recommended buffer to be used for all wash steps within the protocols for both kits.

Directions for Use: Dilute ELISA Wash buffer (20X) to a 1X solution using double distilled H₂O (ddH₂O). This product supplies enough 20X material to make 2.5 liters of 1X solution.

Storage: Supplied as a 20X solution. We recommend storing at 4C, however, this product can also be stored at room temperature.

For product specific protocols and a complete listing of recommended companion products please see the product web page at www.cellsignal.com.

Thank you for your recent purchase. If you would like to provide a review visit cellsignal.com/comments.
